Who we are

RIKO STYLE is a Bulgarian manufacturer of tables and chairs with well-established positions on the internal and international markets. We started as a small-scale family workshop in the distant 1992. Based in Troyan – a town and a region, well known in Bulgaria and many places around the world with its 120 years of tradition in chairs and other furniture production.

Currently, Riko Style is one modern and well-organized factory with 9000 square meters working area and 250 employees in production. Today, with a range of more than 400 products sold in more than 28 countries around the world, we can safely say that we have made the right choice Riko Style to be a company that keeps up with the times and the ever-changing trends in our business. At the same time, we rely on the best practices in furniture making. This constant blend of tradition and innovation allows us to create quality products with classical and contemporary designs.

Central to our identity is the quality. Our pursuit of perfection starts from the very first stage of production with a careful selection of solid wood and plywood, continues through each step of the manufacturing process until the ready products are meticulously packed and delivered to our customers. Of great importance to achieve this is the effective teamwork of all our employees combined with the cutting-edge machinery Riko Style has. We design and create chairs and tables ready to enter diverse areas – residential homes, restaurants and hotels, healthcare and educational institutions, and banquets. Our products possess all the specific characteristics that are required based on their application. We can experiment, change our products, and introduce new production technologies because we know who we are and what our brand represents for those who choose it – a guarantee of quality and creativity at a good price, timeless elegance, flexibility, and innovative solutions.

Who we are

Manufacturing

Our primary goal since the very beginning has been for our clients to get chairs and tables of the highest possible quality. To achieve this, we invest in the most important things: people, materials, and machinery. In our manufacturing, we buy and install the latest equipment from top global brands in the furniture industry. All the production stages have CPU-controlled machines, which guarantee precise work.

We never compromise on quality. To achieve this goal, we pay a strict control of all raw materials we use in our production. All the timber we use in our production comes from replanted sources. The lacquers we use are supplied by the best Italian manufacturers. Our finish is the best possible. We use fabrics and foams which comply with all European and UK Fire Retardant regulations, and we can present all the needed certificates
